

# ARCHERY

Open season for the budding Robin Hood, all year round! Train with a qualified instructor as you put your coordination skills to the test for both kids and adults!

A fun and exciting challenge for those who play, archery works perfectly for all events ranging from corporate team building days to wedding entertainment, school events (ages 7+ suitable) or community fun days and stag events!

Our instructor is specially trained to deliver sessions, run fun games and help you handle and shoot the arrows correctly. Being run in 45 minute sessions or alternatively setting up team challenges and 'best-of' games and point scores, archery can be as relaxed or as competitive and challenging as you make it.

Being one of the most versatile activities for any age or event, archery combines skill with speed to make for one memorable experience.
