

# HOT DOGS

The fun of the fair, the tastiest treat and the most versatile kind of food! With vegetarian options available, our hot dogs are perfect for all and come with everything you need!

Vegetarian options and meat alike, our hot dogs add to the life of the party! The smell is irresistible; we know this from buying them every time we come across a stand, which is why hot dogs are one of the most versatile food products to have at any event! Having served up to London solicitors all the way through to conference students and even wedding guests and party people – hot dogs become the ultimate foodies-go-to!

Simple, fuss free machines and simple fuss free food make it easy for the machine to be self-operated (although we do recommend hiring an assistant so you can focus more on your guests than cooking!) Coming with all the necessities from your onions to your ketchup & mustard, hot dogs are definitely ones not to miss!

## CUSTOMER REVIEWS

"The hot dogs were a HUGE success and Andy was a delight. I didn't get to thank him before he left, so please pass on my gratitude to him. He arrived without fuss, set up the stand and kept everyone well and truly supplied with the hot dogs."
