

DIDI CARS

Fun, ride along didi cars hire are great for birthday parties, weddings, fun days and events needing children's entertainment.

Didi cars hire are great for keeping children (and adults!) entertained at birthday parties, weddings and community fairs. No need to push or scoot along, simply swivel the steering wheel to get the didi cars moving. Didi cars do not need electricity, motor or pedals. Simple to use for all ages, they are light weight at only 3.8kg but tough enough to endure weights of up to 120kg. Didi cars are a fun addition alongside some of our other children's party entertainment such as our soft play activity centre, bouncy castle or other garden games. Children will love riding around on the didi cars, or we can set up mini obstacle courses for more of a challenge.
