

CASH GRABBER

60 seconds to grab a grand. Sounds brilliant, and one of the biggest challenges you'll face to date! Enter the whirlwind and grab as many tokens as you can!

The cash grabber (alternatively known as grab-a-grand), is the biggest crowd puller for any event! Perfect for exhibitions and promotional stands, family events and parties or school events, all it takes is 60 seconds per round to try and grab a grand!

Go up against the blower and a whirlwind of tokens flying around your head as you try to catch as many as you can before your time is up! Plus side – the tokens can also be brandable, so why not turn it into a competition for raffle ticket entries, a corporate challenge or a quirky staff incentive for freebies around the office to last the year! You can also brand the clear Perspex panels, the top of the unit and pull banners to promote your brand or product.

CUSTOMER REVIEWS

"The team were quick to get back to me and super helpful to accommodate our needs, also super patient when we weren't the quickest to get back to them. They kept me updated the whole time from initial contact to arrival on the day."
