

ICE CREAM ROLLS

Dazzle your guests at your next event with these fantastic ice cream rolls! They look amazing and taste delicious.

The coolest dessert out there - ice cream rolls, aka stir fried ice cream, is a new take on traditional soft serve ice cream. Each serving is created by hand by pouring ice cream mix onto a frozen metal plate, then rolling the mixture into beautiful spirals as it freezes. As the ice cream is hand mixed you can add any flavours or toppings into the mix for a truly unique experience.

We offer a Winter or Summer menu and include flavours such as mint chocolate, lemon meringue, popping candy, salted caramel and Christmas pudding! Ice cream rolls are super versatile for any event as your guests can pick and choose their flavours and toppings for each serving.
